NOTE FOR: Chief, Planning Staff

- D/OC has asked for some reasonable balance in our support to [redacted] [redacted] With the numbers already identified, plus the help being given to the [redacted] his ability to attend to the basic commo recapitalization project for which our FY-83/84 budgets made such a case, is reduced significantly.
 - I called [redacted] suggesting a meeting involving himself, D/OC, yourself and me. Since he is attempting to focus his current attention on his upcoming budget presentation, he asked that the meeting be held after the first week in March. He and D/OC have been negotiating directly, continuously.
 - Since [redacted] at this time, somewhat ambiguous and Commo is hard-pressed, it would seem proper to suggest to [redacted] that he might try DoD, whose resources are much greater.
